

Monitored. Secured. Tracked.

Drop Box Security

Maricopa County voters may return their early ballot by mail or drop it off at any Vote Center or secure ballot drop box. There are many layers of oversight to ensure ballots are safe and secure. All drop box locations are publicly accessible, approved by the Maricopa County Board of Supervisors and can be found at Locations.Maricopa.Vote.

Where can I find drop boxes?

[LOCATIONS.MARICOPA.VOTE](https://Locations.Maricopa.Vote)

Vote Centers

Voters may use any Vote Center to drop off an early ballot. Locations are open for up to 28 days.

MONITORED BY STAFF

Drop Box Only Sites

Drop box locations are inside many city and town clerk's offices. There is no in person voting available at these sites.

MONITORED BY STAFF

24-Hour Drop Box

Available outside the elections office in Phoenix and Mesa, available 24 hours a day, bolted to the ground, and monitored by security cameras.

PERMANENTLY SECURED

Locked & Secured

All ballot drop boxes are visibly marked as an official drop box, locked, and have a small opening for envelopes. Only Maricopa County Elections or the inspector have a key.

How is my ballot transported?

Daily Pick Ups

Two ballot couriers of differing parties pick up the signed and sealed early ballot packets every day the location is open.

Audited Nightly

All forms are reviewed and audited nightly when the transport bins are inspected at the Maricopa County Elections facility and sealed envelopes are removed for early ballot processing.

Tamper Evident Seals

During pickup, the sealed envelopes are placed in a transport bin, which is secured by a tamper evident seal.

Serial Numbers and Logs

The seals have a serial number that is logged in a transport statement, which is signed by both ballot couriers and the inspector or a government official.
